### NEW IN NREACH

#### 21st Century Learning Skills

The challenge for education in the 21st Century is to create an education approach that is agile, adaptable and in-tune with the lives of students outside of the classroom while additionally having a positive bearing on their employability prospects. The focus of today's education system is to build 21st Century skills that allow students to gain first-hand experience of real-world problems. NIIT Foundation implemented this learning intervention in partnership with Microsoft.

NIIT Foundation has decided to deliver 21st Century Learning Skills TOT (Training of the Trainer) to the faculties of our NGO partners without any cost. This will help the faculties to develop 21st century learning skills among the students which are required in their holistic development and help them in their future job opportunities.

21st Century Skills set development among students.

#### New Offerings of Job Oriented Courses

With the pressing need of employment in the country and to equip our partner NGOs better, we have initiated the idea of providing **Job oriented courses** to our partner NGOs. This will not only help NGOs increase their impact area but will also help them to deliver NSDC affiliated and SSC approved courses at their respective centres. The list of "NEW JOB ORIENTED COURSES" that we have included under our fleet in N-Reach model are:

1. **Certificate Course in Business Correspondent (Banking and Financial Sector)**
2. **Certificate Course in Showroom Operations (Retail Trainee Associate)**
3. **Certificate Course in Customer Relationship Management (BPO Voice)**
4. **Certificate Course in Data Entry**
